

Note from Tom DuBos, Member of Federation and Library Board Federation Appointee.

On Thursday, August 14, the night of the Federation's meeting, there will be a public forum from 3:00 to 7:00 pm in the Goodwood Main Library Auditorium for the public to see a preliminary design and offer comments and suggestions regarding the new Main Library in Independence Park. It is important for as many people as possible to drop in and offer their views at this time. The Federation has worked diligently with others to assure a new library that will be beautiful, efficient and convenient to all the residents of the Parish. A major point, not yet decided by the Library Board of Control, is whether the 3rd floor should be built-out over the first two floors to accommodate the Genealogy section currently at Bluebonnet, or reduce the Main 3rd floor and possibly move Genealogy to downtown. We believe most of the residents support the enlarged Main at Independence Park and oppose the move of this important research feature to downtown.

It would be most helpful if some members of the Federation could drop by Goodwood and register their views before going to the Federation's meeting at 7:00 pm. Could you arrange a notification email to members? Thanks.
